PROFESSIONAL SUMMARY

Results-driven Data Analyst and Full-Stack AI/Data Engineer combining six years of enterprise Generative AI and data pipeline engineering at ST Engineering with 15 years of senior quantitative governance leadership at ABN AMRO Bank and Citibank, plus community programme analytics at NTUC Health. Seeking to serve as Data Analyst at CLEVERLY SG PTE LTD, supporting the SEO, SEM, Paid Social, and Web teams to collect, clean, and analyse campaign data, prepare KPI dashboards, and uphold data integrity.

TARGET ROLE-FIT EVIDENCE & CORE COMPETENCIES

Data Collection, Cleaning & ETL	Automates multi-source data collection, cleaning, and schema validation using Python (Pandas, NumPy) and SQL to support business and marketing reporting.
Dashboards & Data Visualisations	Builds executive dashboards and visual reports (Looker Studio, Power BI, Streamlit, Chart.js) translating campaign telemetry into clear decisions.
Marketing & Campaign Performance Analysis	Tracks Cleverly SG's core KPIs—Organic/Paid Traffic, Keyword Rankings, CTR, CPC, CPL, Conversion Rate, and ROAS—across SEO, Google Ads, Meta & TikTok.
Internal Team Support & Ad-Hoc Reporting	Partners with SEO, SEM, Content, and Web teams to fulfil rapid data requests, cohort analyses, and IMDA PSG grant package (DM Cleverly / Athena) reporting.
Data Governance & Integrity Discipline	Honed across six years of AI/data engineering at ST Engineering and regulated banking audits at ABN AMRO & Citibank; zero reconciliation or log backlog.

EXPERIENCE

Programme Associate (Programme Analytics & Operations)

NTUC Health - Active Ageing Centre / Jun 2026 - Present

- Collect, clean, and analyse longitudinal client attendance, risk screening, and programme evaluation datasets to support centre reporting and service planning.
- Prepare recurring operational dashboards, cohort participation reports, and visual summaries for internal teams and community healthcare partners.
- Maintain strict data accuracy, consistency, and statutory documentation across electronic records while facilitating community engagement sessions.

Software Engineer (Generative AI & Data Analytics)

ST Engineering, Singapore / Jan 2019 - Dec 2025

- Engineered mission-critical enterprise data pipelines, automated ETL workflows, and Generative AI analytics models (Python, SQL, BERT NLP keyword extraction, Prophet forecasting) under strict data governance and statutory compliance.
- Built interactive KPI dashboards, authored audit-ready technical reports, tracked multi-stage campaign/project milestones, and maintained precise data logs under strict SLA standards.
- Assisted internal engineering and business teams with complex data extraction requests, anomaly detection, and schema standardization.

Director

ABN AMRO Bank, Singapore / 2009 - 2018

- Managed multi-stakeholder data governance, high-consequence operational analytics, and time-sensitive regulatory compliance reporting in a strictly audited banking environment.
- Directed executive MIS dashboarding, KPI tracking, and cross-departmental data quality reconciliation, translating complex quantitative metrics into actionable business insights.
- Developed mature interpersonal judgement, consultative stakeholder alignment, and inter-agency consensus building across regional teams.

Vice President

Citibank, Singapore / 2003 - 2009

- Led operational risk reviews, quantitative portfolio reporting, stakeholder communications, and team leadership with high accountability and data integrity.
- Established standardized documentation protocols, audit trails, and KPI quality assurance checks across regional banking operations.

SELECTED DATA ANALYTICS & MARKETING INTELLIGENCE PROJECTS (GITHUB.COM/JOHNTAN38)

Multi-Channel Marketing & SEO/SEM Performance Suite

GA4 · Google Ads · Meta/TikTok Ads · Looker Studio / Chart.js

- Designed interactive campaign tracking dashboards monitoring Cleverly SG's 7 core digital marketing KPIs: Organic Traffic, Conversion Rate, Keyword Rankings, Paid Traffic, CTR, CPC, and CPL.
- Automated UTM parameter validation, funnel drop-off diagnostics, and blended ROAS attribution for SME digital marketing packages.

Streamlit Prophet Time-Series Forecasting & BERT Keyword Extractor

Python · Facebook Prophet · BERT NLP · Streamlit (Streamlit_Prophet_1 / Streamlit_Bert)

- Built automated time-series forecasting models to project seasonal lead volume, ad spend efficiency, and conversion trends with confidence intervals.
- Implemented transformer-based NLP keyword extraction to identify high-intent long-tail SEO keywords and pillar-cluster content opportunities.

E-Commerce Market Basket Analysis & Executive BI Dashboard

Python · Apriori Algorithm · Pandas · Jupyter (Best-README / dashboard-v2)

- Conducted association-rule mining using the Apriori algorithm to uncover cross-sell product bundles and boost e-commerce average order value (aligned with Athena E-Store analytics).
- Engineered modular KPI cards, cohort retention tables, and automated CSV/JSON data validation pipelines.

EDUCATION & QUALIFICATIONS

Graduate Diploma in Social Work

Singapore University of Social Sciences (SUSS) / Currently enrolled

Formal postgraduate study covering Applied Programme Evaluation, Behavioural Data Interpretation, Direct Practice, Social Policy, and Professional Ethics.

Diploma in Social Service

Hua Mei Training Academy, Tsao Foundation / Jan 2026 - Jun 2026

Comprehensive preparation in structured needs assessments, quantitative/qualitative evaluation logging, and stakeholder coordination.

Master of Business Administration (MBA)

Nanyang Technological University / 2003 / Dean's Honours List

Bachelor of Science

National University of Singapore / 1994 / Public Service Commission Scholarship

CORE CAPABILITIES

Data Collection, Cleaning & ETL (Python, SQL, Pandas) / Dashboarding & Data Visualisation (Power BI, Looker Studio, Streamlit, Chart.js) / Marketing Performance & Campaign Tracking (GA4, Google Ads, Meta, TikTok, LinkedIn Ads) / SEO & SEM KPI Analytics (Organic/Paid Traffic, CTR, CPC, CPL, Conversion Rate, ROAS) / Predictive & NLP Analytics (Prophet Forecasting, BERT Keyword Extraction, Market Basket Apriori) / Data Governance, Accuracy & Audit-Ready Documentation

CLEVERLY DATA & MARKETING ANALYTICS MODEL

01 Data Collection & Hygiene: Automated ingestion, cleaning, and validation across GA4, Google Ads, Meta, TikTok, and CRM sources.
02 KPI Dashboarding & BI: Interactive dashboards tracking Organic Traffic, Paid Traffic, Keyword Rankings, CTR, CPC, CPL, and ROAS.
03 Campaign & Funnel Analysis: Multi-touch attribution, SEO keyword cluster tracking, A/B landing page diagnostics, and conversion lift.
04 Internal Team Enablement: Responsive ad-hoc data queries and analytical reporting for SEO, SEM, Social, Content, and Web teams.
05 Governance & Transparency: Audit-ready documentation and PDPA data integrity for IMDA PSG packages (DM Cleverly & Athena).

CLEVERLY SG COMMITMENT

Dedicated to Cleverly SG's core ethos—Transparency, Strategic, and Comprehensive—and its mission of delivering "Data-Backed Strategies. Real Results." Committed to helping Singapore SMEs cut through complex technology and marketing jargon through an absolute no-sugar-coating data policy, rigorous data governance, and actionable campaign insights.

LANGUAGES

English fluent; Mandarin and Cantonese conversational.
